

The Sand layers lost 13 years ago had never been recovered in Ishifuro coast (1998.1.31) despite the efforts of artificial supply of sand

The Wave in Storm had easily come over the Concrete Block removing sand layers away (1998.1.31) The bank of stone built beside the Ishifuro Sauna might also stopped the flow of sand from the North

Sand layers continue to be removed in Ishifuro coast (1998.1.31) The Sea Water has reached the Ishifuro Sauna
